Job Description

PRODUCTION COORDINATOR/PRODUCTION MANAGER

EVENT PRODUCTION

Production Coordinator/Manager will work with project manager and subcontractors to design, plan, manage and execute technically seamless events. Precon produces approximately 100 events annually, primarily in and around the Washington DC region.

- Qualified candidate will have experience managing the technical aspects of special events, meetings or conferences, theatre or related industry.
- Oversight of technical aspects of special event production including audio, video, lighting and projection.
- Oversee the design, fabrication and installation of special event décor, props and other theatrical and scenic elements.
- Candidate must have basic knowledge of carpentry, painting, general construction and other fabrication related aspects of event design and installation.
- Facilitate the graphic design process, including dimensional renderings for sales and marketing, and technical drawings and related graphics needs for production. Additional graphics projects include creative signage, site plans and other event related graphics needs.

Candidate must have minimum of five (5) year's experience working in Special Events, Theatre, Construction, AV Production or related field.

Candidate must be proficient with graphic design software packages. Preferred software includes Adobe Illustrator and Photoshop, Vectorworks or WYSIWYG, or other CAD and Vector based programs.

Salary will be commensurate with experience.

Ideal candidate for Production Manager position will have existing book of business of existing clients
